

Summer, 2011

Dear Doctor,

This summer kidsMEDPACKS will be pre-packaging all of my child's prescription and over-the-counter medications needed at camp. Medications that are in pill form will be packaged in personalized dosage packets for easier and safer dispensing. All medications will be clearly labeled with my child's name, the name of the medication(s), doctor's name, Rx number, and dispensing instructions. Due to insurance regulations, all medications will be filled in 30-day increments.

**Prescriptions for Non-Controlled Medications:**

Please write for a **30-day supply with 1 refill**.

The pharmacy will dispense the refill only if it is needed during the summer.

**Prescriptions for Controlled Medications Only:**

For campers attending more than one session of camp, we require **2 prescriptions**. Prescriptions for Controlled Medications can be ***dated within 6 months*** of the start date of camp. If you are writing 2 prescriptions, they may have the same date or different dates on them.

If you have any questions, please contact:
